THE RIGHT CHOICE IN LEATHER

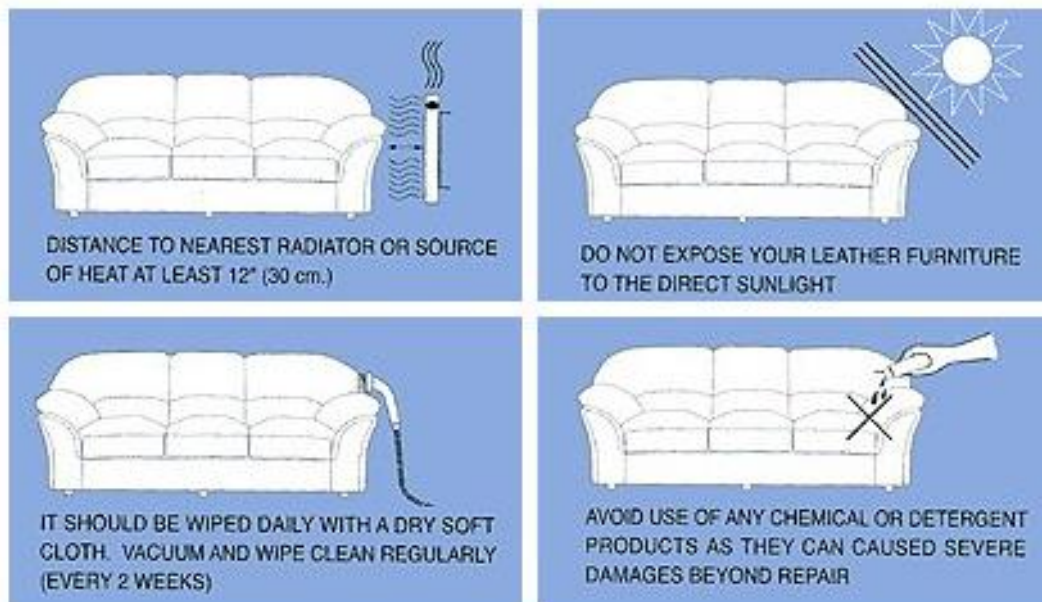

- Leather outlasts fabric four to one; it has a useful life of fifteen to twenty years, versus four to five with other fabrics.
- Leather will not tear and is twice as strong as any fabric, even along the seam lines.
- Leather absorbs colors and will not rub off or fade.
- Contemporary Leather will not crack or peel; it stretches and retains its shape without sagging.
- Leather will breathe and assume body temperature rapidly, making it instantaneously comfortable.
- Leather is a practical material that wears well.
- Leather ages well, unlike other fabric; it acquires a fine natural patina that may become more supple with age.
- Leather is fire resistant and emits no toxic fumes even when exposed to intense heat.

OUR QUALITY

- Full Leather – All 100% Top Grain Leather.
- Leather / Leather Match – Top Grain Leather where the body touches. The rest is vinyl.
- Blended Leather – A higher grade of bonded leather with a more pleasing texture and increased durability.
- Frame Construction
 - ✓ Seat cushion foam 1.9-2.1 density*
 - ✓ Seat cushion with fiber wrap*
 - ✓ Coil spring cushion*
 - ✓ Hardwood frame*
 - ✓ Seating support-webbing*
 - ✓ No-sag spring*

* Due to different softness, comfort and style, some models are produced with different configuration or wood frame
